Summer weather on winter time in Majorca!

Palma.—The clocks may have gone back in the early hours of this morning heralding the start of Winter time but Majorca is still enjoying beach-like weather. October is on course to be one of the hottest on record giving greater strength to the argument that

Majorca is a first class Winter holiday destination. The Palma Met Office says that the good weather will last until at least the middle of next week. Unfortunately the majority of hotels on the island are now closing for the Winter. **Photo: Julian Aguirre.** See Weather Page 12
