Winging it: Impatient passenger leaves delayed plane via emergency exit

London.—An airline passenger was arrested after leaving a plane delayed on the tarmac at a Spanish airport via the emergency exit.

Passenger Fernando Del Valle Villobos captured the incident, which took place on Monday, in a video that showed the man walking along the wing with his bag in hand. Del Valle Villobos said the Ryanair flight had left London an hour late and pas-

sengers were then held on the plane for a further thirty minutes after landing in Malaga, without explanation from the airline.

Ryanair said: "Malaga airport police immediately arrested the passenger in question and since this was a breach of Spanish safety and security regulations, it is being dealt with by the Spanish authorities."
