“WE WANT OUR FREEDOM”

Palma.—Hundreds of people marched through the streets of Palma yesterday calling for an end to all Covid restrictions and the vaccination programme.

The march came on the day that the Covid passport was scrapped for entry into bars and restaurants and just days after the face mask requirement in outdoor areas was also abolished.

The protesters, of all nationalities, are deeply opposed to the vaccination programme introduced by the national government. They called for the return of their freedom after months of restrictions.

Organisers said that they were pleased with the public response with a “high turnout” which would have been greater if the government hadn’t announced the end of the majority of restrictions.

The march was peaceful and there was a party-like atmosphere but with a serious message. They called on the media “to tell the truth about Covid” and blasted the Balearic government over their coronavirus policies.
